1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Saunders on 18-12-06.

The application has been amended as follows:

1) In claims 1 and 3, line 1, after the term, 'liposomes', 'comprising an active ingredient,' has been added.

2) The dependency of claims 10 and 11 has been changed from '9' to '1'.

3) Claims 9, 12, 13 and 44-59 have been canceled.

2. The following is an examiner's statement of reasons for allowance: The prior art on record does not teach or fairly suggest the claimed amphoteric liposomes having at least 30 neutral lipid; the presence of neutral lipid unexpectedly leads to the significant enhancement in the transfection ability of the liposomes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
